See Green 3:1:6 (15) is a liquid foliar feed formulation for use as a nutritional supplement for field and tree crops, commercial and garden ornamentals and vegetables. See Green 3:1:6 (15) applications stimulate and promote plant growth when applied during active growth phases as well as facilitating plant recovery when applied after stress conditions.

Directions for use:

See Green 3:1:6 (15) should be applied as a full cover spray every 2-3 weeks after stress periods or during periods of high nutrient demand. It is advised that sprays be applied in the early morning or late afternoon.

Dilute at a rate of 1 L of 3:1:6 (15) per 250 L water and apply at a rate of 2 L 3:1:6 (15) per hectare.

Compatibility of the product has not yet been evaluated and it is advised that an observation test be done by first mixing a small amount of the spray solution.
